ADVANCE IN YOUR

Healthcare Career

.....

EARN A MASTER OF HEALTH
ADMINISTRATION ONLINE FROM
BELMONT ABBEY COLLEGE.

Take your healthcare career to the next level.

Now is the time to advance in your healthcare career. According to the U.S. Bureau of Labor Statistics, occupations in healthcare are projected to increase 15% from 2019 to 2029, growing faster than other career areas. *That means new leaders are needed in this field for the years ahead.*

To act on this opportunity for your future, you need the right set of skills and knowledge. You also need a professional degree program that lets you gain those skills without putting your current occupation on hold.

Our MHA program will **help you do that.**

The online Master of Health Administration degree is for healthcare professionals who wish to develop the skills and knowledge they need to advance in their careers.

Over the course of four semesters, students will enhance their competency in:

- Healthcare communication
- Human resources
- Analytics and financial management
- Health law and policy

The program culminates in a capstone course with a written report and presentation.

32%

Projected employment growth rate for medical and health services managers (eight times the average rate for all occupations)

\$100k

Median annual wage for medical and health services managers in 2019

Online means flexibility.

The online Master of Health Administration degree offers flexibility and value for professional students. It can be completed in four full-time semesters (16 months) at \$695 per credit hour, inclusive of all books and fees. New cohorts begin in the fall and the spring. *This program does not require a GRE or GMAT for admission.*

Course topics include:

Health Informatics and Analytics

Learn strategies for analyzing databases and healthcare data to make clinical and administrative decisions.

Organizational Behavior and Communication in Healthcare

Examine workplace behavior, motivation and conflict as applied to the healthcare industry.

Catholic Healthcare Leadership and Ethics

Discuss Catholic teachings regarding healthcare and bioethical dilemmas.

Take your degree into the field.

- Communicate effectively with a variety of people— from professionals and patients to employees and shareholders— and respond to their needs.
- Analyze current practices and conduct a process to improve everyday operations.
- Create a healthcare environment in which goals are set and accomplished.
- Effectively resolve issues and challenges.
- Apply Catholic social teaching to make informed decisions with patients, family and doctors.

Use our program to become a:

- **Director of Nursing**
- **Human Resource Manager**
- **Research Administrator**
- **Program Administrator**
- **RN Care Manager**

The Abbey Difference

The field of healthcare is complex and always changing. At Belmont Abbey College, healthcare education is grounded in the enduring hallmarks of Catholic and Benedictine education and faithful to the Ethical and Religious Directives for Catholic Health Care Services. With a working knowledge of Catholic social teaching and ethics, you will have a firm foundation to evaluate changes and ever-evolving situations as you work with others in the field.

As a Catholic Benedictine liberal arts institution, Belmont Abbey College believes in the development of the whole person — mind, body and spirit. The online Master of Health Administration degree integrates practical knowledge of health services into the framework of Catholic and Benedictine traditions, which will prepare you to work as a compassionate, spiritual servant-leader in the professional world.
